

CAC-PIV Atlassian Authentication Suite 3.19.0.2 Release Notes

Description

Goldfinger Holdings is pleased to announce the release of Client Certificate Authentication 3.19.0.2.

Bitbucket Server Fixes

Version 3.19.0.2 contains a fix for Bitbucket Server where 3.19.0 cannot be started for certain users. Please use this version if 3.19.0 cannot start.

Upgrade Guide

In general, if you are coming from a previous version of the solution, users will have to revert the installation procedures to remove the current setup. After that:
