

Client Certificate Authentication 3.0 Release Notes

Go2Group is please to announce the release of Client Certificate Authentication 3.0

Description

This is a major release with 2 major changes. Firstly, JIRA and Confluence can now be installed via the UPM. For Crowd, the solution will be installed via \$CROWD_HOME/plugins instead of the lib folder. The second major change is the ability to make changes to the solution's configuration in the application itself via a configuration screen.

No more .properties file

At the moment, version 3.0 only supports JIRA, Confluence and Crowd. We're working hard to release a version of the solution that would work for the rest of the Atlassian applications.

Download

Users can request for a download (along with the documentation) from our Service Desk at:

- <https://jira.go2group.com/plugins/servlet/desk/portal/1>

Upgrade Guide

In general, if you are coming from a previous version of the solution, users will have to revert the installation procedures to remove the current setup. After that:

JIRA & Confluence	Crowd
<ol style="list-style-type: none">1. Retrieve your .jar2. Head over to the application's UPM3. Upload the .jar4. Head over to the application's administration screen and look for CCA Authentication Configuration link	<ol style="list-style-type: none">1. Retrieve your .jar2. Stop the Crowd instance3. Install the .jar into \$CROWD_HOME/plugins<ol style="list-style-type: none">a. If the plugins folder does not exist, create it4. Start the Crowd instance5. Head over to the application's administration screen and look for CCA Authentication Configuration link

Version Matrix

This page contains the version matrix for the Client Certificate Authenticator solution.

- If the version is not on the list, it is not supported
- Goldfinger Holdings assumes that the add-on works because the code compiles against **x.y**. If it does not work for any **x.y.z**, please raise a support ticket at our [JIRA instance](#)
- Strikethroughs on the App version(s) means that we do not support that version anymore

Legend:

= Not fully tested or testing in progress

= Tested version

JIRA

Atlassian Product Version / Application Version	8.14.x – 8.13.x	8.12.x– 8.8.x	8.7.x – 8.4.x	8.3.x – 8.1.x
3.19.1				
3.19.0				
3.18.2 – 3.18.1				
3.17.2				
3.15.3				

Confluence

Atlassian Product Version / Application Version	7.11.x – 7.9.x	7.8.x –7.5.x	7.4.x – 7.1.x	7.0.x
3.19.0				
3.18.2 – 3.18.1				
3.17.2				
3.15.3				

Stash / Bitbucket Server

3.19.0.2

- This version (3.19.0.2) is only applicable if 3.19.0 cannot be enabled on Bitbucket Server 7.7.x

Atlassian Product Version / Application Version	7.9.x – 7.7.x	7.6.x – 7.0.x	7.1.x	
3.19.0 & 3.19.0.2*				
3.18.2 – 3.18.1				
3.17.2				

Bamboo

Atlassian Product Version / Application Version	7.2.x - 7.0.x	6.10.x		
3.19.0	✓	✗		
3.18.2 - 3.18.1	✓	✗		
3.17.2	✗	✓		

Crowd

Atlassian Product Version / Application Version	4.0.2			
3.19.0	✓			
3.18.2 - 3.18.1	✓
